

NOVA SYSTEM AI PRESENTATION GUIDE

THE MISSION

To redefine human-computer interaction by transforming the PC into an autonomous partner that understands intent and executes complex goals.

NEURAL BRAIN

Multi-model failover prioritizing speed and privacy.
Ollama (Local) + Groq (Ultra-Fast) + Gemini (Deep Thinking).

NIE TECHNOLOGY

Custom Pure-NumPy Transformer.

- Multi-Layer Self-Attention.
- Sub-millisecond Intent Detection.

FUTURE ROADMAP

2026: Expansion into Global Vision Links and Recursive
OS-Self-Modification modules.
